

## PURPOSE

Presentations aren't just about sharing information—they're powerful opportunities to inspire and mobilize support for fund growth and development. With a clear message and compelling success stories, a basic presentation can transform into a catalyst for new donations, strategic partnerships, and innovative funding solutions. By engaging your audience and demonstrating how every contribution creates lasting community impact, you set the stage for ongoing financial support and future growth.

## STRATEGY

- Share key information about your organization.
- Showcase examples of successful funds that have been developed.
- Highlight the exciting \$2,000 grant opportunity from the Dane G. Hansen Foundation.
- Explain how existing funds have made an impact, inspiring further investment.
- Conclude your presentation by giving your audience a chance to donate directly to one of your funds.

## DETAILS

Our "Get Them to the Table" program invites small group meeting attendees to actively shape community funding decisions. Utilizing funds from the Patterson Family Foundation, each attendee will receive a ballot and have \$20 allocated on their behalf to vote for the fund they wish to support at our community foundation. After the meeting, we'll share an announcement detailing how the funds were allocated and notify the fund managers of the donations received through this program. This initiative empowers our community to directly influence funding for projects that matter most.
